

Flower Power Choker (or Anklet)

Level of Difficulty: Novice

Materials List:

- 100 SuperDuos (A)
- 65 3mm Swarovski bicone crystals (B)
- 2 strips approximately 15" in length each of Flat Leather or Suede
- 2 large-hole beads
- 6 lb FireLine in Crystal or Smoke
- #10 or #12 Beading Needle

- Thread Conditioner or Beeswax (only if you are using Crystal FireLine, not necessary for Smoke FireLine)
- Thread Cutter
- Felt Beading Mat or Bead on It board

Instructions

Notes:

- This is a continuation of the Flower Power Bracelet in *The Essential Guide to Epic Jewelry Design*. After completing Steps 1-13 from the Flower Power Bracelet pattern, start with Step 14 below after completing the number of flowers for the desired length (which is approximately 10 flowers for a choker).
- You can alternate colors like the picture above using 50 SuperDuos in one color and 50 in another.

14) Now you're ready to add the leather. Pull one end of the flat leather through the opening of one of the flowers on either end and tie a knot leaving a small amount of a tail as shown below. Repeat with the other strip of suede on the flower at the other end.

15) Put a large-hole bead on the end of each of the Suede or Leather ties and knot above and below the bead as shown below. Enjoy as either a choker, anklet or double-wrap bracelet!
